

# Exterior Retractable Shades | Retractable Awnings | Interior Retractable Shades

expanding the art of outdoor living.

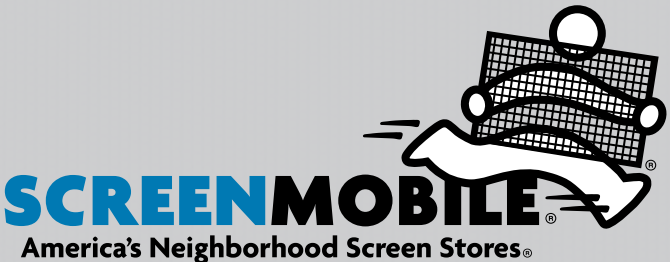

# Why Buy From Screenmobile

Screenmobile offeres many different interior and exterior retractable shading options.

We work tirelessly to provide an option for all levels of custom shading needs.

Offering options from our Elite Interior Screens, that will span up to 20 feet with a 16 foot drop, to our Elite Magnetic Lock Screens, that employ a magnet at the base of the cable guide system to allow the fabric to hang flatter and be more stable in the wind, we can build you the shade that will best suit your needs.

# Why Retractable Shades

## Greater outdoor enjoyment

Installing our Retractable Awnings or Patio Screens to shade your outdoor living areas will maximize the time spent with family and friends being outside. Installing a Retractable Patio Awning to cover your deck or patio will provide you a shady spot to enjoy a summertime meal or a good book. Our Retractable Patio Screens will add just the right shade to any covered patio area all season long.

## Shade with a push of a button

Screenmobile offers Premium motors and controls, as well as Somfy motors and controls for all of its Retractable Awnings and Screens. Installing a motorized retractable shade allows you to operate your shade with the push of a button. Motorized retractable shades also allow for optional controls such as sun, rain and wind sensors.

## Expand your outdoor space

Today more than ever outdoor living is a priority of many people. Installing a Screenmobile shade not only allows you to spend more time outdoors but also increases your outdoor space. Using our Elite "Fabric Retention Track" system will allow you to completely enclose your covered patio it can be shaded, insect proof and free from debris allowing you to increase your living area.

## Block the sun, keep your view

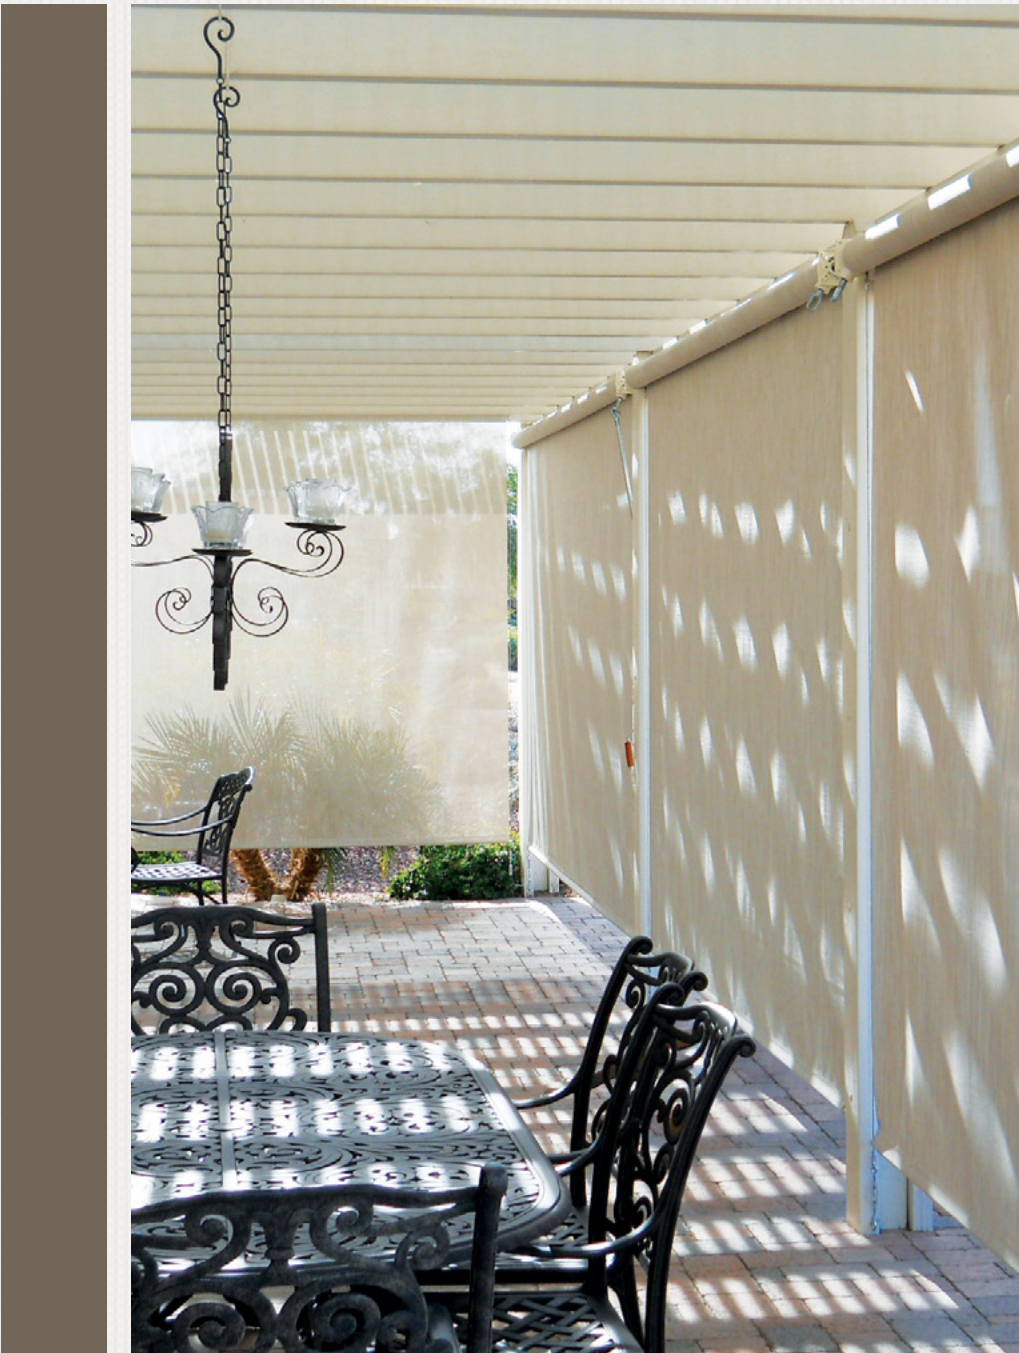

Screenmobile offers a variety of solar screen materials for our retractable screens. Solar screen fabrics are designed to block the sun's heat and light while allowing the user to enjoy their view. Solar screen fabrics are available in many different densities and colors, but remember the darker the fabric the better the view.

## UV Protection

Protection from the sun's damaging rays is a priority for everyone who spends time outside. Installing a Screenmobile retractable shade will provide protection from these harmful rays, in fact our Sunbrella fabrics are recommended by the Skin Cancer Foundation as an effective UV protectant.
